

Directions

This is your customizable itinerary, or timeline.

These examples provide time and detail suggestions. However, you will want to customize every line based on your own wedding details.

After you have entered all your important information, you will want to print a copy for everyone in your wedding party and close family that have to be at various events during your wedding.

The cover is going to be its own page.

Print page 1 and put it to the side.

To print the inside, print only page 2.

Place page 2 back in the printer to print on the other side. (Depending on your printer, you generally need the paper to face you.)

Fold both pages longways (like a hot dog) and staple along the center seam to form a booklet.
